

ion out your health

Designed in Australia, **ELANRA Air™** is the world's only therapeutic personal ioniser to produce the *small* negative ions of oxygen found in nature that are inhaled to enter the bloodstream and enhance our health and wellbeing.

With nine easy-to-program individual settings, including three output levels and three different frequencies, you can customise the **ELANRA Air™** to assist with the treatment of a range of health problems including cold and flu, allergies, hayfever and headaches. **ELANRA Air™** has been specifically designed to stimulate your immune system, improve your concentration, reduce stress, and increase your energy and vitality.

The **ELANRA Air™** is conveniently compact and can be worn comfortably around the neck, providing you with unrestricted freedom and therapeutic benefits while at work, home, study, traveling, driving and in hospital.

Replacing the negative ion balance that is missing from the polluted air we breathe, **ELANRA Air™** is fully portable and 'hands free' for people on the go. So go ahead and start 'ion'ing out your health today!

the world's most
advanced wearable
therapeutic ioniser

negative ions explained

The presence of nature's negative ions in the environment has long been associated with improvements in our physical and mental health and wellbeing. Extensive research supports the view that these *small* negative ions of oxygen have many positive therapeutic effects and have been shown to help accelerate the body's natural healing process, eliminate air borne bacteria, increase lung capacity, improve sleep, boost the body's immune system, reduce stress and anxiety and lift moods.

at a glance
